

CI-637

HIGH TRACTION FOR DRIVABILITY IN SEVERE CONDITIONS

ON/OFF APPLICATION

11R22.5
11R24.5

The 16-ply rated **CI-637** is a tire proven to work well on and off-highway supporting extra-heavy loads common in the logging and mining industries. The deep 32/32 inch tread depth provides long tread life and excellent traction. The CI-637 is mud and snow rated and is equipped with an intricate five-rib block design specifically shaped to minimize squirm for stability and even wear.

OPEN-SHOULDER TREAD DESIGN
creates additional biting edges for optimal traction.

STONE DEFENSE FEATURES
effectively minimize rock and pebble packing to protect the belt package and casing from stone drilling.

CURB GUARD
protects the casing from in-service damage.

CUT AND CHIP RESISTANT TREAD COMPOUND
is comprised of a much softer compound that is flexible, preventing puncture during ride on rough terrain.
