

GI-378

DURABLE WIDE SINGLE TIRE DESIGNED FOR ON AND OFF-ROAD SERVICE

ON/OFF APPLICATION

385/65R22.5
425/65R22.5
445/65R22.5

The **GI-378** provides an exceptional balance of on-road stability and off-road traction. On the road, the specially designed tread pattern provides optimal traction and handling while the wide outer ribs provide stability even under heavy loads. Off the road, the stone drilling prevention features keep debris from penetrating the casing. Up to 20-ply rated for extra load carrying capacity, the GI-378 is a cost-effective solution for on and off-road service.

WIDE OUTER RIBS
provide on-road stability.

STONE DEFENSE FEATURES
effectively minimize rock and pebble packing to protect the belt package and casing from stone drilling.

CUT AND CHIP RESISTANT TREAD COMPOUND
is comprised of a much softer compound that is flexible, preventing puncture during ride on rough terrain.

Size	Ply-Rating/ Load Range	Item #	Single Load Index	Dual Load Index	OD (in)	S.L.R. (in)	Buff Radius	Overall Width (in)	RPM	Tread Depth (in)	Weight		Max Speed (MPH)	Single Load Limit		Dual Load Limit	
											lbs.	kg		lbs./PSI	kg/kPa	lbs./PSI	kg/kPa
